

# Giving Tapspace webstore gift certificates by hand

Gift certificates are the perfect gift solution for the passionate percussionist in your life. You can order gift certificates in any dollar amount you like, and the recipient will be able to use the gift certificate ID as a payment method when shopping on the Tapspace webstore.

**Tapspace gift certificates** are normally intended to be sent electronically where the recipient gets their certificate by e-mail. With this form, however, you can purchase your gift certificate online, then give it to the recipient in person when the special moment arrives. They'll love you for it!

1. Go to **www.tapspace.com** and click on the "Gift Certificate" link.
2. Fill in the form fields. Since you won't be sending the gift certificate directly to the recipient, be sure to **enter your own email address** in the "Send via E-mail" area. Once you've filled in all the fields, add the gift certificate to your cart.
3. **Checkout** using one of the available payment methods. Once your order has been processed, the electronic gift certificate will be sent to you via e-mail. In some rare cases, this e-mail may get filtered to your "junk" or "spam" folder, so if you don't see the e-mail within a few minutes, you may want to check there.
4. On the form below, fill in the available fields. **Carefully write down the Gift Certificate ID on the appropriate line.** Be sure to copy the ID carefully, and write neatly or the recipient may not be able to use it.

-----  
Cut below the dotted line and give to the lucky recipient.
